Entry or Blockage by Pine Needles – (% effective)

Leaf Relief – 97%\* (no water flow reduction)

Popular Competitors – 86%

Wire Mesh - 53%

## Warranty:

"Never a Clog, Never an Overflow" –

Our promise that for the 10-year duration  
of the Leaf Relief product warranty, your  
gutters will not become clogged and  
overflow because the interior of the gutter  
fills with ordinary debris such as leaves,  
twigs, needles, seeds, and roofing  
granules. Our product is designed to  
eliminate entry of this sort of debris that  
can otherwise create blockages in the  
gutter or flow to the downspout and cause  
damming and eventual gutter overflow.
